IEG PI NOTICE

DISTRIBUTION:  
ALL PIs

No. 47-77

TITLE/SIGNIFICANCE:

ACRV M-1974 (VARIANT)

COMMENT: Five ACRV M-1974 (variants) were observed at URALSK ARMY BARRACKS

This is the second identification of this vehicle in the Soviet Union. It was previously seen near BORISOV HQ TD/AB AL 2 in Oct 1976 (see PI NOTICE 4-77). The identification of the ACRV M-1974 (variants) at URALSK ARMY BARRACKS, a probable communications school, suggests that the ACRV M-1974 (variants) have a signal command role. This school contains equipment only associated with signal units.
